SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Paul Willott, GREETING: You are hereby required to appear in an action commenced against you as defendant, by Mary Elizabeth Willott, as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons, (exclusive of the day of service), if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover a divorce from the bonds of matrimony existing between you and plaintiff, and for the custody of your and her minor children, viz.: Albert P., aged 13; Mary T., 10; Robert, 9; Ann, 7, and George 3 years; on grounds alleged of your wilful desertion of her one year; of your habitual gross drunkenness contracted since marriage with her, incapacitating you from contributing your share to the support of her and your family, extreme cruelty on your part to her, and your neglect to provide the common necessities for her and your family, where such neglect was not the result of poverty on your part which you could not have avoided by ordinary industry, for one year and more; that you are harsh and of evil manners and example to your children, unfit to have custody of your children, and she is fit and proper to be their custodian; that you and she were married the 15th day of March, 1874, and that she has resided six months and more before the commencement of this suit in Washoe county, State of Nevada all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred. And you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand this 6th day of July, 1888.

THOS. E. HAYDON,
Plaintiff's Attorney.

NATIONAL

Republican Ticket.

FOR PRESIDENT,

BENJAMIN HARRISON

OF INDIANA.

FOR VICE-PRESIDENT

LEVI P. MORTON,

OF NEW YORK.

POLITICAL NOTES.

Doubtful States are constantly becoming less doubtful.

Uncle Sam (addressing Gen. Harrison, and po nting to the Presidential chair) —Ben, jam in!

Ninety per cent. of the Wisconsin bolters in 1884 are earnestly supporting the Republican cause this year.

The stampede of Democratic Protectionists in West Virginia over to the Republican party is assuming great dimensions.

In Flushing, L. I., at a Republican flag raising, the standard-bearer was the man who raised the first Cleveland flag there four years ago.

In a recent letter, Bishop Vincent, of the M. E. Church, declares that while he is a Prohibitionist he is not a third-party man but a Republican.

Chairman Quay of the National Republican Committee, is not doing much talking. He is sawing wood. There are no cobwebs on Chairman Quay.

A prominent Massachusetts Democrat, who has been visiting the interior of New York State, says he is astonished at the number of Democrats deserting the Cleveland ticket.

The latest addition to the Republican ranks in New York is a Harrison and Morton Club made up entirely of Southern men who are going to support the Republican party this year, because of its position on the Tariff question.

Mrs. Eliza Garwer is the first woman politician of South Carolina to take the stump. She is a candidate for School Commissioner, and has set her mind upon being elected. To this end she has gone into the campaign like a "real man," and is said to have spent her money with great freedom, and to have organized her campaign with the cleverness of a trained politician.

E. S. Hammond, long known as an Ohio politician and writer for the press, who now lives in Washington, has just celebrated his eightieth birthday. He stumped Ohio in 1840 for "Tippecanoe and Tyler too." His popularity in that famous campaign gained him an election to Congress. The flood of years has not changed his politics, as he is now preparing to take an active part in the canvass for Harrison and Morton.

Senator Ingalls is expected to make his speech on the foreign policy of the Cleveland Administration some time next week. The fisheries treaty will be the text, but the Senator's talk will not be confined to it. He will have some caustic things to say on other subjects, and neither Mr. Cleveland nor Secretary Bayard is likely to enjoy them. In the last Congress when Ingalls spoke his picturesque description of the methods of British civilization and his comment on British diplomacy he stirred up the loyal Britons across the water. He was charged with twisting the lion's tail for political effect. Such criticism does not worry the Kansas Senator. His talk next week in its bluntness is not likely to fall behind what he has said in the past.

The President's letter of acceptance has not been completed, and none of the party leaders have seen even the rough draft of it. Some of them have urged the President to issue the letter soon, but he has intimated that he does not think there is any special haste. None of the Cabinet have seen it except in the sense that they have talked over with the President party politics in general. It is expected that the President will follow the lines of his December message in his letter, and declare for a reduction of the revenues to the actual necessity of the Government.

The Cleveland Leader's enrollment of Harrison veterans has turned the corner of the second thousand, the list now reaching 2,005, and the cry is still they come. Evidently the woods in Ohio forty-eight years ago must have been full of Tippecanoe and hard cider voters.

In cultured Boston they do not hiss an actor or public speaker when they wish to express their disapproval of his efforts. Instead the audience simply exclaims "Boo!" in loud and denunciatory tones.

Gladstone, expressing thanks to the Sheffield deputation for the present on the occasion of his golden wedding, said then when he secured Home Rule for Ireland his political work would be finished.

The President contemplates a visit to Maine. Nothing is said of an interview with James G. Blaine.

RENO AND ENVIRONS.

The Inland Commercial Center of Nevada.

Under date of July 17th, "F. B. L." writes the following to the San Francisco Rural Press, which is published in its issue of August 4th:

Editors Press:—The city of Reno, located on the Truckee river, is the first place in Nevada at which the east-bound traveler arrives in his journey by the C. P. R. R. from San Francisco. It has a population, according to the latest census, of 4,640. The people are refined and intelligent, and are distinguished for the interest displayed in educational matters. Besides the usual common and graded schools, with fine buildings adequate to meet the requirements of the place, it is the seat of the State University, Bishop Whitaker's Seminary for young ladies, a large Catholic school and other private institutions of learning, all amply endowed and efficiently maintained.

The leading denominations of the Christian religion are well represented, and have good church buildings. The Masons, Odd Fellows, Ancient Order of United Workmen, Knights of Pythias, Chosen Friends, Good Templars and several other Orders have organizations here, and are reported to be in a flourishing condition.

The streets are wide and laid out at right angles, and illuminated with electric light. The city has two banks, the First National and Bank of Nevada, and a new opera house, the finest between Sacramento and Salt Lake.

Reno has two ably-edited, well-patronized daily and weekly newspapers, the JOURNAL and the Gazette. It has a number of fine stores representing nearly all branches of trade, and some of them doing both a wholesale and retail business. There are here many handsome residences, adorned with spacious grounds with beautiful lawns and shade trees, and an air of contentment seems to prevail throughout the place. Reno is the seat of government for Washoe county, and is exceptionally well situated for an inland commercial center, having communication both east and west by the C. P. R. R., and south by the V. & T. R. R., which connects at Carson City with the Carson & Colorado R. R. Good wagon-roads lead out in all directions. It has as tributary one of the best, if not the very best, tracts of available land in the State—the Truckee meadows. To the south and east lies the smiling landscape, covering an area of about 30,000 acres, dotted with the comfortable homes of their prosperous owners. The rich emerald of alfalfa-fields is an alluring sight to behold. At this season of the year there is great activity among the dwellers of this Eden in making and stacking up hay for Winter use. By means of irrigation the farmers of this valley make a yearly average of 4 tons of good hay per acre, two cuttings. The usual price realized is $7 per ton, and it always finds a ready sale to stockmen on the outside, who are not so favorably situated to raise feed for their large herds. There are other sections of the State perhaps equally as fertile in the quality of the soil, but the supply of water from the never-failing Truckee river is lacking, and the deficiency of provender compels stock owners to rely upon the Truckee meadows as the great storehouse to carry them safely through the inclemency of Winter. It is estimated that not less than 14,000 head of cattle are annually wintered on the meadows in the vicinity of Reno. Recently your correspondent had the pleasure of calling upon some of the most progressive farmers and stock-raisers in the valley, among whom was Geo. Deremer, three miles south of Reno. He is a resident of over 20 years, and has his business reduced to a science. Two miles farther south is situated Lake's ranch, one of the oldest and best improved in the State. It consists of over 1,000 acres of choice land and produces 1,400 tons of hay annually, besides affording grazing for 200 head of stock. Mr. G. H. Douglas is the present occupant of this superb farm. There are a number of other ranches between Reno and Steamboat Springs, which, if down in Southern California, their owners would be well-nigh at a loss to estimate their value. Among these may be named the farms of Messrs W. W. Morton, John Sparks, A. G. Brown, Mrs. Longley and E. Crane. The latter gentlemen was about the first to introduce alfalfa in the valley, and for his rashness he had for a time to bear the stigma of being called crazy, but the insanity proved contagious, and to this epidemic may we attribute the highest adornment of the valley and the prosperity of its inhabitants.

East of Reno are located some exceptionally fine ranches, one of which is owned by Hester Stevens, Esq., consisting of several hundred acres. The proprietor harvests 75 bushels of oats from his fields, and does not claim to be the most scientific farmer either.

From Hon Geo. Alt, Glendale, I learned much concerning the early history of the valley, he having settled here as early as 1859. His farm, consisting of 250 acres of fine river bottom, is in a high state of cultivation. All his neighbors accord him much credit for the methodical management of his farm.

RESORTS.

Contrary to what may be supposed by some people at a distance, Reno is not wholly dependent upon California in the matter of pleasure and health resorts, for at her very door are attractions for not only her own people, but which, if as lavishly advertised as are some of much less importance elsewhere, would draw thousands of people from afar. For instance, most people have heard of Steamboat Springs, but it is safe to say that comparatively few outside of Nevada know much, if anything, concerning the real merits of the place as a resort for tourists and invalids. They are located 11 miles south of Reno and the same distance from Virginia City, on the line of the V. & T. R. R. Their altitude is 4500 feet above sea level. Steamboat Springs were so named because when discovered the escaping steam produced a noise resembling the puffing of a steamboat. They were discovered by Felix Monet, but the first improvements worthy of mention were made by Dr. Ellis in 1862. Soon after the completion of the buildings Ellis was ousted by Chas. Cullins, who had purchased the title of Cameron, a former claimant. The improvements made by Ellis were burned in '67 and in '71 Cullins built a depot and other buildings. In this year the V. & T. R. was completed to the springs and quite a town sprang up. Two years later Cullins fell into one of the springs, from the effects of which he soon after died, and his successors were the Rapp Bros. They built the hotel and other buildings. Charles Moeller was the next owner, and his successors were Farnum & Murphy; the former since retired in favor of Murphy, the present host, whose popularity is gaining wide celebrity. The springs are numerous and extend over a space of several hundred acres. The vapor arising can be seen at some miles distant, and the sound emitted from the deep and narrow fissures has been likened to the battery of a quartz mill. Some of the springs flow up and form great pools, which are carried down into bath-houses for the accommodation of guests.

One of the springs is called chicken soup, from the fact that with the addition of a little pepper it would require a trained epicure to detect it from the broth of the real chicken. But the spring which attracts most attention is intermittent in its action. The rise and fall in the basin formed around it occupies about six minutes. For nearly five minutes the small quantity of water in the basin is quiescent. It then gradually begins to rise, the ebullitions increasing till the water runs over the rim, when it slowly subsides, the agitation lasting nearly a minute. A little soap thrown into the basin causes the waters to rise and fall as usual for three or four times, when they commence to boil with unusual energy, throwing up the spray from two to eight feet, and emitting an immense volume of steam. In this way the spring will boil for hours with varying activity, sometimes partially subsiding, only to gather renewed force, when it finally comes to rest, the water entirely disappearing as if completely exhausted. The temperature of the chief spring is about 204° Fahrenheit, which is near boiling at that altitude.

The waters of these springs are claimed to be effectual in the relief of rheumatism, neuralgia, dyspepsia and kindred complaints. The writer met a number of visitors at the springs a few days ago, among them Geo. Osbourne, Helen Mason Osbourne and Mrs. C. L. Mason, of the Alcazar Theater, in your city. They expressed much satisfaction as to benefits they derived from the springs and the treatment received from the host, Mr. Murphy. The accommodations are ample for 100 guests. There is a beautiful grove of large trees adjacent to the hotel, and a rich, grassy meadow through which flows a fine stream of pure cold spring-water. In the park there is also a bowling alley, a commodious dance-hall and interesting scenery; in short, visitors will find much to commend itself to their attention at Steamboat Springs.

Ex-Governor, Thaddeus C. Pound, of Wisconsin, is one of the returning Mugwumps. His accession to the Cleveland ranks was hailed with great satisfaction by the Democrats four years ago. He is now as zealous a Republican as can be found in Wisconsin, and says that nine-tenths of the bolters in 1884 will vote for Harrison this year.

The Philadelphia Times (Dem.) quoting a statement that the betting in favor of Cleveland against Harrison is at the rate of 2 to 1 or at 3 to 2, recalls the fact that in July, 1872, the bets were odds in favor of Greeley against Grant, and in July, 1880, the odds were largely in favor of Hancock against Garfield.

Mrs. William Drenan, of Honey Grove, Texas, prides herself on the fact that Abe Lincoln courted her and asked her to be his wife. She refused the splice as he was then the homeliest man in Illinois.

General Harrison has nearly a room full of relics of the 1840 campaign sent to him by admiring friends of the grandfather and grandson.

Syrup of Figs

TOWN AND COUNTY.

BREVITIES

The Commissioners will be in session to-morrow.

Mrs. J. E. Jones is reported as still improving.

There was a social dance at Armory Hall last evening.

Mrs. R. C. Leeper returned from the Bay Friday night.

Supt. D. B. Lyman was a passenger for the Bay last night.

Supt. Yerington and wife were passengers for the Bay last night.

Hartshorn will usually restore colors that have been taken out by acid.

Theo. Winters and wife returned to Washoe City yesterday afternoon.

Mrs. L. Novacovich has almost recovered from her recent sick spell.

The Caledonian picnic was a great success, two thousand being present.

M. E. Ward will leave for the Bay this morning with five carloads of cattle.

Senator Fair is a hard hitter, and deserves credit for knocking Eisfelden into the street.

S. A. Hamlin was down from Essex yesterday. The mill is running to its full capacity.

Martin Boos, a native of Germany, aged 49 years, died yesterday at the County Hospital.

Five carloads of cattle were shipped yesterday to Hayes, Carrick & Co., of Oakland, by the Ward Land and Cattle Co.

Washoe ought to have that new jail. There are eighteen prisoners on hand now, and the State Fair coming next month.

Messrs. Bartine and Murphy are mapping out their canvassing tour. They will visit every town and hamlet in the State.

Reno was without gas last night, the works having been shut down for repairs. The electric light and coal-oil lamps furnished the light for the city.

The Rev. J. M. McIntyre, lately from the East, will preach in the Methodist Church to day both morning and evening. Sunday School at the usual time.

Breuner, the Sacramento furniture man, has applied for the lower floor of the Pavilion during the State Fair. He won't get it, but will be allowed room for his usual splendid display.

Jerry Caughlin has been elected Engineer and Steward of the Reno Fire Department at a salary of $75 per month. There was a lively meeting of the Trustees Friday night, and the business transacted was for the general good.

John Robinson, the veteran showman, died at Cincinnati yesterday morning, aged 80. He spent almost the whole of his life in the management of circuses, and was succeeded by his sons during the past few years. He amassed a large fortune.

STATE BOARD OF AGRICULTURE.

The Bowman Offer Unanimously Rejected—Fair Notes.

The State Board of Agriculture held a meeting yesterday, and there were present President Winters and Directors Flint, White, Mulcahy, Marzen and Powning.

The Secretary read the offer of S. W. Bowman to donate the old Fair grounds to the Society. Upon motion of Director Flint, seconded by Director Mulcahy, the following resolutions were passed by a unanimous vote of all present:

Resolved, That the proposition of S. W. Bowman be respectfully declined for these reasons:

1. The Board is of the opinion that it is far better to have the new Fair grounds, with the attendant expense, than the old Fair grounds for nothing.

2. It has heretofore cost the Society about $1,000 per annum to put the old track and grounds in condition for each year's Fair, and in the years to come a sum greater than the entire expense of the new grounds will be saved to the Society, and in the end the Society will have a valuable property.

3. This Society is under no moral or equitable obligations to Mr. Bowman. It is in no sense the successor of the Nevada State Agricultural, Mining and Mechanical Society, either as to assets or liabilities. It never borrowed any money from Mr. Bowman, and has had no financial transactions with him, except to pay him $500 for rent for each of the years 1886 and 1887.

President Winters announced that he would give an $150 for a 20-mile race, five contestants to enter, each rider to be allowed five horses and three assistants. Entrance $10, to be paid to the Society. Of the purse $100 goes to the first and $50 for the second.

The president announced the appointment of Directors Sweeney, Powning and Flint as Stewards for the coming Fair.

On motion it was ordered that $50 be offered for the best cabinet collection of minerals.

The Executive Committee was authorized to let the restaurant privilege.

The Supt. of Track was authorized to construct main gates, picket fence and fence in front of race stables, and lay water pipes to grand stand and stalls.

Bids for all privileges for the Fair were ordered advertised for, to close on the 20th.

The Secretary opened the entries for the stake races, advertised to close August 1st and it was found they had filled as follows:

No. 2. Nevada Stake, running; for two-year-olds (foals of 1886); $50 entrance; $10 to accompany nominations; $40 additional for starters; to be paid in before 6 P. M. day previous to race; ten per cent of stake money to go to racing fund; $300 added; second horse to save stake; three-quarters of a mile.

Small and Whalon enters Ogalena and Ogzella.

Theo. Winters enters Desar, Joe Courtney and Don Jose.

G. W. Trahern enters "G. W."

T. Balley enters Little Phil.

W. M. Murray enters Almont.

No. 16. Running Stake; for two-year-olds (foals of 1886); $50 entrance; $10 to accompany nominations; $40 additionals for starters; to be paid in before 6 P. M. day previous to race; ten per cent. of stake money to go to racing fund; $300 added; second horse to save stake; one mile.

Small and Whalon enters Ogalena and Ogzella.

Theo. Winters enters Desar, Joe Courtney and Don Jose.

G. W. Trahern enters "G. W."

T. Balley enters Little Phil.

W. M. Murray enters Almont.

Stake No. 9 was declared off, having but two entries.

Entries for trotting races close August 20th.

Board adjourned to meet Wednesday, August 8th.

AT THE THEATER.

The "Red Fox" To-morrow Night.

The Virginia Evening Report, of Friday, says:

The Ward Company gave a splendid performance of "The Red Fox" at Piper's last night. The piece is replete with Irish humor, while at the same time tragedy and pathos tone the lighter element down to an extent which relieves it of burdensomeness. The support was good throughout the entire cast. As usual, in Ward's performance, the singing was a meritorious feature and elicited much applause.

Some of the patriotic national airs fairly thrilled some of the warm-blooded Celts in the audience, and it needed but little admonition for Gallagher to "let her go."

NEW MINES.—The Silver State says:

Frank Button and Mr. McMastiff have found a new mine in what is known as Good Hope District, near the old Winnemucca and Cornucopia road, which promises to be quite valuable. In running a tunnel to cut another lead, which crops on the surface, they found a four-foot ledge, which carries two feet of ore that averages $200 to the ton in gold and silver. They have taken out about 40 tons of ore, but have had none of it worked yet. The ore is rich in ruby silver.

REAL ESTATE ADVANCING.—The Silver State says:

Town property in Winnemucca is in brisk demand at good prices. Several persons want to rent houses, but cannot be accommodated. Some capitalist ought to build a dozen or more comfortable dwelling houses to rent. There is money in the investment.

THE RED FOX.

The New Irish Comedy-Drama.

See James M. Ward and Carrie Clark Ward in their new Irish comedy "Red Fox," next Monday night. The "Red Fox" is an Irish comedy drama by Daniel O'Connell, of San Francisco, founded on a story of Irish life of the present day, and the scene of it is laid at the castle of Sir John Adare, an Irish gentleman. He has for his guest Sir William Luttrell, an Englishman of most unscrupulous character, who insults the charming wife of his host by declaring his love for her. He has also betrayed a peasant girl belonging to Sir John's estate. A groom named Grimes is a most sneaking and revengeful individual, who allows himself to be horse-whipped by his master. Among the other guests at Sir John's is Desmond O'Neal, a soldier in the service of France, who has just returned to his native land to claim the hand of Sir John's sister. Immediately on being accepted he is informed of the villainous conduct of Sir William Luttrell, who he has already recognized as a rascal whom he met upon a race-course at Curragh. He is compelled to promise his intended that he will under no circumstances quarrel with Luttrell. That night he is grossly insulted by him, and his intended comes to his assistance, and releases him from his promises, and a duel is arranged for the next morning. All through the plot "Rody McCaura" (known as the "Red Fox,"), a jolly and witty young Irishman who is the faithful huntsman of Adare Castle, figures conspicuously. On the day of the duel Grimes steals O'Neal's pistols, and murders his master. The guilt points to O'Neal, but Rody makes a great sacrifice to save his mistress' lover. "Mave Carrolan," Rody's sweetheart, suspects who is the real murderer, and tells Grimes to his face that he murdered Luttrell. Grimes is about to choke her when O'Neal protects her. A plot is now formed to get Grimes to swear on the "Donough," and a meeting of the National League is called for by their leader, O'Neal, for the purpose of testing Grimes' assertions of innocence. Grimes, being informed of the meeting, suspects some plot and determines to escape if possible. In an old cave by the sea he has concealed his ill-gotten gains, and goes there for the purpose of obtaining them. In the meantime Rody who had been imprisoned, makes his escape through the assistance of old Dan Davaron. Rody in trying to escape from the constabulary, is fired upon, as he jumps from the cliff into the sea. All now believe Rody to be dead. O'Neal does not give up hope and tells Mave to have the boys of the League get boats and search for his dead body. Rody more dead than alive, swims to the cave, where he encounters Grimes. Grimes at first thinks him a ghost and having confessed the murder he determines to to put Rody out of the way in earnest. It is now life or death with both. A fearful struggle ensues. Grimes takes a cowardly advantage, but is frustrated by O'Neal and the officers who arrive just in the nick of time. The real murderer confesses. Mave and Rody are made happy, and all are invited to the wedding of "Mave" and the "Red Fox." The play is full of strong situations and exciting scenes, beautifully blended with fun, pathos, music, singing and dancing. Elegant scenic and mechanical effects. All under the supervision of Mr. James M. Ward.

DOUGLAS COUNTY ARTESIAN COMPANY.—The Genoa Courier says:

A meeting of the parties interested in procuring artesian well machinery was held at Dr. Williams' office last Saturday. The meeting was called to order by Hon. J. W. Haines. H. Springmeyer was elected Chairman and Geo. M. Smith Secretary.

It was decided to form a joint stock company under the name of "The Douglas County Artesian Well Company," and to incorporate on August 4th (to-morrow) with a capital stock of $3,000, divided into 3,000 shares of $1 each. One thousand dollars of the capital has already been subscribed.

Officers were elected for the first year as follows: President, H. Springmeyer; Directors, D. B. Park, H. Fulstone and Berry; Secretary, Geo. M. Smith; Treasurer, L. Fray.

The Secretary was ordered to procure the stock and draw up by-laws and articles of incorporation.

H Springmeyer, D. B. Park, H. Fulstone and Geo. M. Smith were appointed as a committee to decide upon a machine to be purchased, and instructed to report to-morrow afternoon, to which time the meeting adjourned.

The company proposes to procure first-class steam power machinery for sinking 1,000 feet, and to bore a well for each stockholder having 100 shares or over for the actual cost of running the machine. This is certainly a cheap way to get a well, and at the same time assist in the development of the country. If a man fails to secure a flow of water he is out nothing for pipe, as the next man to have a well put down will take that off his hands at cost price. We believe the steps taken by this new organization is a move in the right direction, and that it will accomplish more in developing the resources of our county than anything that could have been done. An opportunity is now offered for every one to take an interest in the enterprise and to make it known by contributing a few dollars to a fund with which to purchase machinery. Don't be backward, gentlemen, but put your shoulders to the wheel and help to purchase a No. 1 machine for our valley, and it will not be long before there will be an artesian well at every farm house.

WINNEMUCCA'S WATER.

A Matter of Great Importance to That Town.

The Silver State says:

While there is a demand for suitable residences for families in Winnemucca, it is generally conceded that the town will not expand much beyond its present limits unless the water supply is increased. A gentleman who contemplated improving some lots which he owns in the suburbs informs the Silver State that he cannot procure water for irrigating purposes, as the water works cannot supply more than their present customers. The question of increasing the water supply is therefore of the greatest importance to the town, and until it is solved satisfactorily there cannot be very many lots for residences reclaimed from the desert, as trees and grass plats require irrigation. Possibly the water supply could be materially increased by artesian wells, or water for irrigation could be procured from the Humboldt river. It would be feasible, too, to bring water from the Thomas ranch in the Harmony mountains, and the supply might be increased by raising water from ordinary well with wind-mills, but that more of it must be obtained from some source to enable people to cultivate the grounds about their residences is conceded by everybody. With plenty of water, the valley for miles up and down the river could be cultivated, so there is no danger of getting too much, if all that can be procured from every available source is brought to the town.

DISTRICT COURT.—The District Court was in session yesterday, and the following business was transacted:

The demurrer in the case of Fogus vs. the Reno Electric Light Company was overruled, and defendant given ten days to answer.

In the case of Holcomb vs. DeLuchi the demurrer to the complaint was withdrawn and defendant given ten days to answer.

In the contempt case of Michael Callahan et al., for an alleged violation of an injunction granted on petition of George S. Smith restraining the first named from using the waters of a certain creek, the Court found the defendants, Michael and James Callahan guilty, and imposed a fine of $50 on each.

The Only Perfect Remedy

For bibitual constipation, dyspepsia and kindred ills is the famous California liquid fruit remedy, Syrup of Figs. It is easily taken, and perfectly harmless. Sold by Wm. Pinniger, Reno.

An Explanation.

What is this "nervous trouble" with which so many seem now to be afflicted? If you will remember a few years ago the word malaria was comparatively unknown,—to-day it is as common as any word in the English language, yet this word covers only the meaning of another word used by our forefathers in times past. So it is with nervous diseases, as they and malaria are intended to cover what our grandfathers called billiousness, and all are caused by troubles that arise from a diseased condition of the liver which, in performing its functions, finding it cannot dispose of the bile through the ordinary channel is compelled to pass it off through the system, causing nervous troubles, Malaria, Billious Fever, etc. You who are suffering can well appreciate a cure. We recommend Green's August Flower. Its cures are marvelous.

When Baby was sick,
We gave her Castoria.
When she was a Child,
She cried for Castoria.
When she became Miss,
She clung to Castoria.
When she had Children,
She gave them Castoria.

PLATFORM AND RESOLUTIONS.

The Republicans of the State of Nevada in convention assembled again express their loyalty to the principles of the Republican party, which have made the country so great and prosperous during the last quarter of a century.

Resolved, That the question of a sufficient supply of a circulating medium to maintain a permanent range of the price of labor and property is the most important political question awaiting solution by the American people.

Resolved, That a diminishing quantity of money reduces the price of labor and property increases the obligation of contract, enriches the creditor, impoverishes the debtor, and paralyzes industry and enterprise.

Resolved, That the present financial system of the United States, which increases or diminishes the circulating medium at the pleasure of the manipulators of the National banks, without regard to the increase of population or the wants of the people, and which recognizes gold alone as the standard of value, and places in the hands of the Treasury Department all the revenue of the Government to speculate with in bonds and loan to National banks without interest, is subversive of the rights of the people oppressive, unjust, and should be repudiated.

Resolved, That a financial policy whereby both gold and silver shall form the basis of circulation, whether the money used by the people be coin, or in certificates redeemable in coin, or both, as convenience may require, is imperatively demanded.

Resolved, That the attempt to substitute National bank notes, costing the Government millions of dollars annually, for free silver, costing nothing, is an outrage upon the people; that the money ring or trust, which has usurped the sovereign power of the Government to issue money, and which has fraudulently demonetized silver and seized the revenues of the Government for private speculation, shocks the moral sense of the people and destroys respect for Government and law We demand that this ring or trust be destroyed and equal rights restored to all people.

Resolved, That we charge that President Cleveland is the willing tool or agent of a powerful money ring which fattens the subsidies of the Government, makes war on silver, issues its paper currency at the expense of the Government, borrows the revenues raised by taxation, and uses them without the payment of interest, contracts the currency to enhance the value of bonds, and enriches the usurers while it depresses the price of labor and property.

Resolved, That we favor the nomination of no man for President who is personally interested in National banks or the bonded indebtedness of the United States, but we demand a candidate who is free to do justice to all the people of the country—the poor as well as the rich.

Resolved, That the trickery of the President and his advisers by which they prevented a vote in the House of Representatives on the Beck silver amendment to the Bond purchasing bill, equals the villainy of the secret and fraudulent demonetization of silver in 1873.

II

Resolved, That we are in favor of the protection of home industry, and that the laborers of this country have a right to all the work required to supply the people of the United States, and that we are in favor of high wages in this country, and to that end will protect the wageworkers competition with the cheap labor of other lands.

Resolved, That the policy of the Government should be inaugurated and established by the people through their representatives in both Houses of Congress, and not by the President or the money trust, of which he, either as agent or head, is most active in defending.

III

Resolved, That we charge President Cleveland with violating every promise he made in favor of civil service reform, with crippling the mail services, with refusing to sign necessary bills for the improvement of rivers and harbors, with using the power of his Administration to prevent appropriations for a navy and coast defenses, with attempting to destroy the protective tariff, with courting the good will of other nations at the expense of the citizens of the United States, and with joining the foreign bondholders to demonetize silver and destroy the industries of our country, and for the reduction of wages of the Mint employes at Carson for closing the Carson Mint when it was not only self sustaining but a source of revenue to the Government, for its contemptuous veto of pension bills for the relief of disabled soldiers and sailors, and for failing to construct the Government building at Carson as required.

IV

We are in favor of the absolute exclusion of Chinese, and the restriction of immigration, by which the present overcharged condition of the labor market is made worse, and also favor legislation by which a revision of our naturalization and land laws may be accomplished.

V

We demand, in behalf of our various industries the retention of the duties on lead, borax soda, hides and leather, and to restore the tariff of 1867 on wool.

VI

Resolved, That we recognize the right of labor to organize for its lawful protection.

VII

Resolved, That we favor the submission by the Legislature to the people of an amendment to the Constitution giving the Legislature the power to regulate the liquor traffic

VIII

We favor liberal appropriations by Congress for hydrographical and topographical surveys in this State to the end that the waste waters may be preserved for the purpose of irrigation.

IX

We indorse the wise and conservative administration of Governor C C Stevenson, and we heartily commend the able efforts of Senators Stewart and Jones and Representative Woodburn in behalf of the interests of the people of this State

X

We favor the granting to Nevada of all Government land within the State for the purpose of providing means for irrigation and other improvements.

XI

We favor the reduction of the Treasury surplus by the payment of pensions to Union soldiers, their widows and orphans, the improvement of rivers and harbors, the building of defenses for our sea-coasts, the erection of public buildings, the creation of a navy, the purchase of bonds and the repeal of the internal revenue laws taxing tobacco.

XII

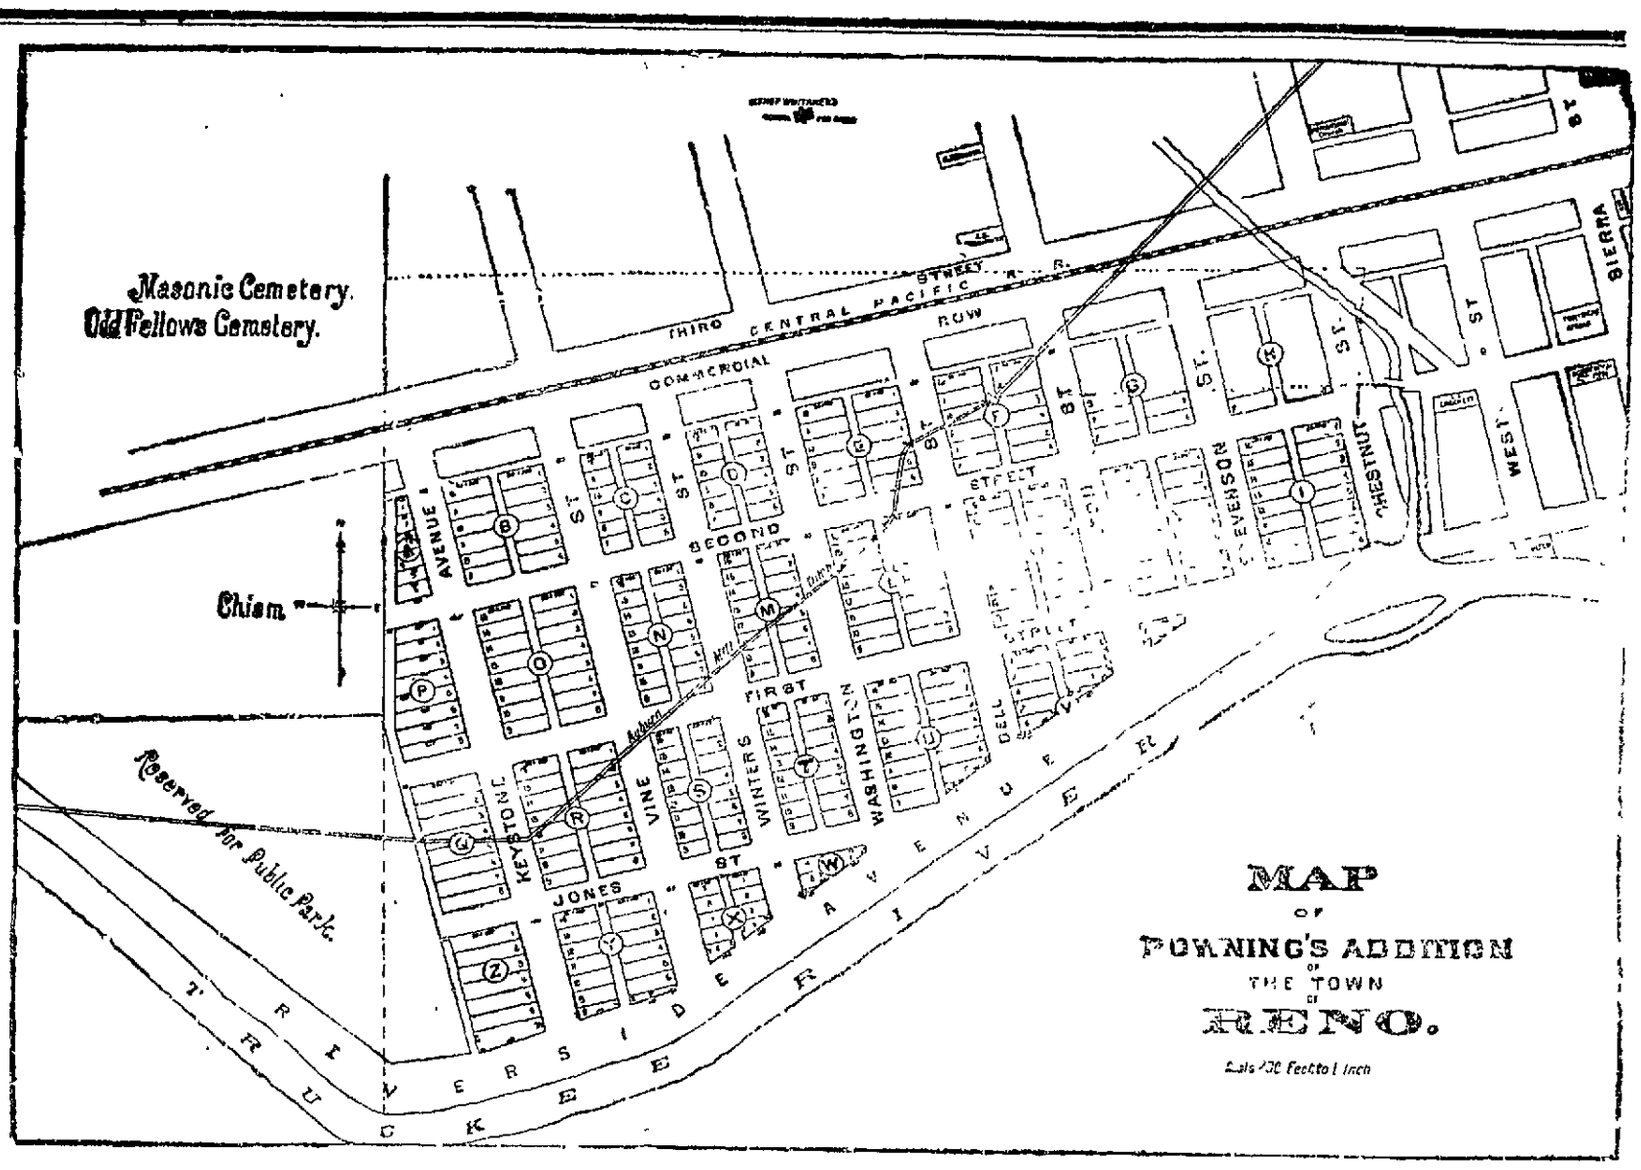

It is the duty of the State to maintain free non sectarian schools in the rural and sparsely settled districts as well as in towns and thickly settled sections, and that such a division of the school money should be made as will furnish the means of education to all children in the State.

XIII

We are in favor of re-opening the Carson Mint for coinage, and raising the wages of its employes to the standard paid by the last Republican Administration

XIV

We demand the restoration of the mail service in this State to the efficiency maintained by the last Republican Administration, and favor the payment of fair wages to all postal employes.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Riverside Avenue Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the Tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State, and there is no failure of crops.

Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with $300,000 capital, and the First National Bank with $200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.
